

TECHNICAL SPECIFICATIONS

Racks/hour (Hot water)	72/40/30/20/12
Racks/hour (Cold Water)	35/35/30/20/12
Cycle time *1	50/90/120/180/300 secs
Power supply	415V, 3Ø+N 50Hz
Wash pump	900 W
Boiler heater	9000 W
Wash tank heater	2700 W
Total power	10.7 kW
Total current	3 x 15.1Amp
Wash tank capacity	20 ltrs
Boiler heater capacity	15 ltrs
Water consumption (per cycle)	2.6 ltrs
Min/max water pressure *2	200/600kPa
Min/max water temp *3	50/65°C
Rack size	500 x 500 mm
Max dish height	410 mm
Weight (empty)	125 kg
Weight (shipping)	141 kg
Dimension (shipping)	76x 84 x150 cm
Drain Type	Pumped
Water connection	3/4" hose
Required water supply	120 ltr/hr
Drain hose diameter	24 mm

STANDARD FEATURES

- Double skin insulated hood
- Five wash cycles
- Chair type tank
- Self cleaning vertical pump
- The PLUS system to grant a constant rinse temperature
- The Break Tank system to prevent backflow contaminations to the piping network
- User friendly multichrome START key
- Electronic control panel/LCD screen
- Self-diagnostic system

The HT-14 OPTIMA has a drain pump that anticipates the partial draining of the waste water before rinsing.

At each cycle the water is warmer and cleaner with the addition of detergent and rinse-aid.

The new chair type, deep formed tank with a reduced volume allows significant savings on water, energy, detergent and also helps to avoid water stagnation.

*1 All Machines fitted with thermostop which may effect cycle time

*2 Optional booster pump is available if the water pressure is below 200kPa; reducer required if over 600kPa

*3 Minimum incoming water temperature without loss of performance; units can operate with cold water at reduced performance.

Machine must be connected according to local regulations.
